CONTENDER

A L W A Y S I N T H E G A M E

Contender Boats. Over 35 years of experience building the world's finest semi-custom sportfishing boats. Boats that are carefully engineered and meticulously hand-crafted – not because it is the easy way, but because we have a reputation to uphold. A reputation of building boats that out-perform and out-last. A reputation that drives us to push the envelope even further, every day.

Being a semi-custom builder allows us to craft boats that excel in tournament fishing, family outings, commercial work and everything in-between. It allows us to work behind the scenes to ensure each boat delivers the ultimate performance, strength, durability and comfort you expect from a Contender. We have 35 years of experience to prove that, and we're just getting started.

POWERED BY

With a mass production boat, your boat is built like all the others.

With a Contender, **YOU** choose your engine power, t-top, tower, helm layout, console, leaning post, electronics, and other options for fishing, seating, and general comfort.

Bumping around the bay, or battling big blowing blue water rollers – there's a Contender for you.

CUSTOM MODEL OPTIONS.

All boats are built from a variety of colors and finishes available. Custom stitched upholstery is available for both forward and rear seating.

A range of factory installed electronics are available to fit console size and budget.

Your boat is built with a stereo system from mild to wild, GPS navigation screens and electronics to suit your application, and personal convenience options that make a day on the water more comfortable.

Choose your custom model options to build the boat that is perfect for your port.

WHY STEPPED HULLS?

Stepped hulls have improved speed & fuel economy.

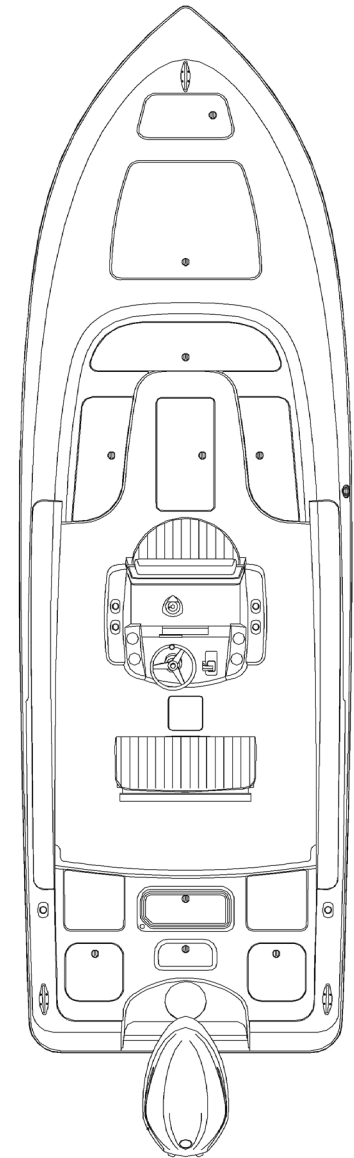

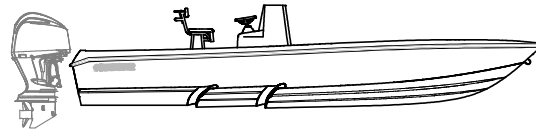

The stepped hulls found on a Contender hull offer the benefit of increased speed and improved fuel economy. The stepped hull generates greater lift, which causes decreased resistance and a lower running angle resulting in a more efficient ride than conventional V-bottom hulls.

Thanks to our decades of experience designing and building high performance fishing boats, we have been able to create the best performing stepped hulls in the industry while maintaining the handling, seaworthiness, and fishability expected from a Contender.

FISHABILITY

Fishing is not just a hobby.

For us, it's a salt-soaked blue water adventure sport that fuels weekend warriors to explore the unknown.

200 Miles from home with big fish to weigh is not the time to wonder about speed, range, or reliability.

The competitive drive is strong at Contender Boats, and serves as the fuel for performance through innovation.

VERSATILITY

Chasing big fish offshore, or sitting in the sun at the sandbar,
You always have options for your Contender.

Make a day of catching rays more enjoyable for everyone with an
in-console step-in head, forward and rear seating options, and
electronics to keep the music loud all afternoon.

Build the boat that suits your needs, and allows your family the
creature comforts they love. Headrests, custom stitched seating,
and coffin lounges for seating and storage are all options to
make your Contender your own.

ALWAYS IN THE GAME.

Over 35 years, hundreds of thousands of miles, thousands of boats, and hundreds of trophy worthy fish... It's widely known that Contender boats are **built to fish**.

Just one trip to the sandbar, and everyone knows these boats are **built for fun**.

The custom options for your taste and style mean the boat is **built for you**.

Most of all –

Contenders have evolved at the highest levels with proven tournament winners, and the hardcore fisherman who are never satisfied with a fishing day that is just good enough. These boats are built to land big fish, and win when the money is on the line.

Contender Boats are built for those that understand the details matter. Not just another competitor - A Contender...

... and with a Contender,

You're **Always in the Game**.
